KYLE McCUTCHEN

kwm26@duke.edu | kwm26.github.io/Portfolio-Website | linkedin.com/in/kyle-mccutchen | Durham, NC

SUMMARY

Product design, game production, and project management professional with hands-on experience leading interdisciplinary teams through full development cycles. Background spans production workflow and sprint planning, cross-functional coordination across design/art/engineering, and product leadership touching UX, marketing, and deployment.

PRODUCTION & LEADERSHIP EXPERIENCE

Lead Project Manager & Lead Audio Designer — Cosmic Labs *August 2025 – Present*

Durham, NC

- Orchestrate production workflow and sprint planning for an 18-person interdisciplinary team (design, art, engineering) on Project Gravity, a 2-year student-developed game production, keeping milestone delivery on schedule
- Spearhead Jira and Notion workflows alongside Perforce version control to keep sprint tracking, documentation, and day-to-day project logistics organized
- Coordinate across disciplines to maintain alignment on scope and priorities as requirements evolve
- Lead audio design and implementation for Project Gravity
- Create adaptive soundscapes and integrate audio systems within Unreal Engine using Wwise

Chief Experience Officer & Lead Graphics/Visualization Engineer — Athletic Training Portal (ATP) *September 2025 – Present*

Durham, NC

- Lead a 3-person team spanning UX research, marketing, and product deployment for an athlete-performance platform, as part of the founding leadership group
- Manage ATP's LinkedIn presence and overall marketing strategy, driving brand visibility and audience engagement
- Design and develop interactive UI systems and responsive visual overlays that turn real-time motion data into athlete-facing feedback, directly shaping product engagement
- Set product direction and go-to-market priorities alongside deployment planning

ADDITIONAL EXPERIENCE

Front-End Engineer — Feeling and Body Investigation App *August 2025 – December 2025*

Delivering Software Project Course

- Partner with faculty researcher Dr. Nancy Zucker to translate a research-driven concept into a functional application
- Lead front-end development in Flutter/Dart to deliver a responsive, user-friendly interface

General and Coding AI Trainer — Outlier *May 2024 – May 2025*

- Develop and evaluate prompts to improve the reasoning and coding performance of AI systems

Executive Board Member — Duke Programming Arts and Design (DPAD) *2023 – 2025*

Durham, NC

- Served on the executive board of Duke's student game-development club; organized and ran Unity tutorials, coordinated game jams, and built an inclusive space for developers

SKILLS

Production & Leadership: Jira, Notion, Perforce, GitHub/GitLab, sprint planning, cross-functional team coordination, stakeholder alignment

Game Development & AI Tools: Unreal Engine, Unreal Blueprints, Unity, C++, C, Python, Claude Code, Claude Design

Marketing & Brand: LinkedIn management, marketing strategy, brand visibility, audience engagement

Design & Creative Tools: UI/UX Design, Wwise, FMOD, Ableton Live, Blender, TouchDesigner, Adobe Premiere Pro, Photoshop

EDUCATION

Duke University, Pratt School of Engineering *Expected May 2027*

Durham, NC

Master's of Engineering in Game Design, Development, and Innovation

Relevant Coursework: Business Fundamentals and Management Principles for Game Production II, Engineering Management Marketing, Management of High-Tech Industries, Gen AI for Games, Fundamentals of Game Design

Duke University, Trinity College of Arts and Sciences *August 2022 – May 2026*

Durham, NC

B.A. in Computer Science and Visual Media Studies; Certificate in Innovation and Entrepreneurship

Relevant Coursework: The Anthropology of Design and User Experience (UX) Research, Data Structures and Algorithms, Intro to Artificial Intelligence, Data Science and Statistical Thinking, Computer Systems
